14. To Edit While Viewing the Web Pages

Your website has a feature called "**Quick Editing**" which allows you to edit your articles while viewing the web pages. Just click the login button on your website; then you can start editing. You can edit articles, add new articles, replace pictures, change the advertisements, and many other tasks, without logging in the Control Panel.

In this example, you are reading the article "Telegraphy" and find out that you want to delete a paragraph.

Here is how to do it.

- **A.** Click the "Login" button under the Top Menu.
- **B.** The login screen will appear. Enter your **username** and **password**; then click the "**Login**" button.

You will be back to the **home page** of your website. The "Login" button is now replaced by a **greeting**. Next to this greeting is the "Logout" button.

Ę	luíet	Emptiness
HOMEPAGE	1	
Welcome, own	ier Logout	

C. Find the article in the website. Click on the title to view the detail page. At the bottom of this article you will see an "**Edit**" button on a gray bar.

D. Click the "Edit" button, you will enter the record of this article. This record is similar to what you would see in the Control Panel. The only difference is that this screen has an "X" button at the top right corner. You will use this button to close this record and return to the web page.
